

KNOW BEFORE YOU GO

STAY HEALTHY OR STAY HOME

- If you are not feeling well **don't travel**.
- **Be alert for symptoms.** Watch for fever, cough, shortness of breath, or other symptoms of illness.
- Follow CDC guidance if symptoms develop.

START

#2

ACCOMMODATIONS

– The hotel industry has committed to a very aggressive sanitization process to provide a clean and healthy environment so you can travel with confidence. The major chain hotels used by ACTS have created resources that detail their sanitization process of rooms, common spaces, and food service areas.

#1

TRANSPORTATION

– All modes of transportation are following federally mandated guidelines with the traveler's safety as the top priority. Disinfecting and sanitization procedures have been developed to provide for the well being of those travelling.

- Airline specific procedures can be found on each carrier's website.

- Motorcoach companies are regulated by federal operations and specific associations. Each company with whom we partner is taking additional sanitization measures for the safety of the traveler. Before any group boards the motorcoach for the first time, the coach will be thoroughly sanitized from previous passengers. The motorcoach will not be used by any other traveler/group for the duration of the trip. Hand sanitizer will be readily available to all passengers throughout each day. Each evening the coach will be cleaned and sanitized.

#3

FOOD SERVICE

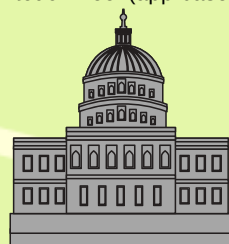

– ACTS has requested, when possible, that dining options be offered in a cafeteria-style (buffet line served by waitstaff) or plated meals served at your table. In addition, more distancing will be provided from other restaurant patrons and groups.

#4

ATTRACTIONS & SITES

– Under both state and federal guidelines, the sites we visit are open with specific measures to provide for the safety and health of visitors. Cleaning of exhibits and high-touch areas will occur numerous times throughout each day. Many sites have developed 'touch free' (app based) activities.

#5

SAFETY

– Keep these safety measures in mind as we embark on this adventure together:

- ACTS is implementing creative ways to deliver content and guide service that allows for group members to space out rather than 'clump' together at various sites.
- Clean hands often - additional handwashing and hand sanitizer stations have been placed in key areas
- Physical distancing practices will be encouraged – please follow verbal directions and posted directional signage.
- Face coverings (masks) may be required at certain sites/locations – all passengers should provide their own disposable or reusable face coverings; please bring an adequate supply for the entire duration of the program.
 - All face coverings should:
 - Fully cover an individual's nose and mouth and allow passengers to remain hands-free
 - Fit snugly but comfortably against the side of the face
 - Be secured (with ties or ear loops)
 - Be made of breathable material, either disposable or reusable
- Monitor your health
 - **Be alert for symptoms.** Watch for fever, cough, shortness of breath, or other symptoms.
 - **Take your temperature** if symptoms develop.
 - Follow CDC guidance if symptoms develop.
